Feedback on Ambience

Feedback Analysis and Action Taken Report

The ambience of the environment plays a significant role in influencing the experiences and perceptions of individuals. In an educational institution, the ambience can greatly affect students' learning, well-being and overall satisfaction. To ensure a conducive and inspiring atmosphere, the feedback on the ambience is invaluable. The feedback is based on sharing their thoughts and impressions of the institution's surroundings, facilities and physical environment.

Objective

At Annai Hajira Women's College, the primary goal of collecting feedback on ambience is to create a physical environment that supports the well-being and academic success of students, fosters a sense of community and aligns with the institution's mission and values. This ongoing process of feedback and improvement contributes to a more positive and enriching educational experience.

Methodology

- We collect feedback on ambience through online channels with the aim of fostering an environment that nurtures students' well-being, academic success community spirit and alignment with the institution's mission and values.
- The IQAC, in turn, collates the data and insights contributed by these stakeholders to evaluate the process's effectiveness and derive valuable insights.
- After analyzing the feedback, we compile an Action Taken Report (ATR).

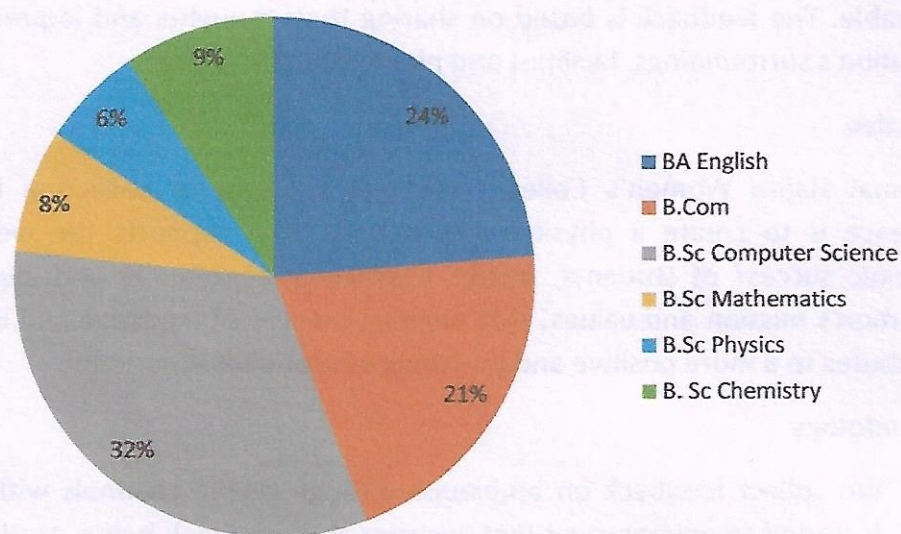

Feedback on Ambience

In our analysis of feedback on ambience, focused on creating a physical environment that promotes students' well-being and academic success, fosters a sense of community and aligns with the institution's mission and values, we gathered responses from various departments within the institution. We received a total of 287 responses from students, reflecting their educational experiences related to the physical environment that encourages well-being and academic success, nurtures a sense of community and adheres to the institution's mission and values.

Feedback on Ambience - Percentage Analysis

Department	Response Number
